

Organic herbs

Phytosophia

Physis (nature), Phyto (plant), Philosophy. In greek all four starts with "φ". The symbol for Golden ratio, the expression of harmonius relation between the parts and the whole, and therefore the expression of varity, economy and unity in the diversity of nature.

Raw materials

Herbs have a long presence in the human civilization. Phytosophia's goal is to bring you a segment of greek nature's herbal wisdom. We focus on cultivating exclusively greek aromatic plants respecting the principles of **organic farming**. Every production stage, from the cultivation to the distribution, has all the necessary attention and care, since our people share a common passion for the quality and a great respect for nature.

The products

Two collections of herbal blends composed of unique ingredients, aromas, tastes and beneficial properties, preserved in a glass jar, ensured of the minimum post-collecting process and the proportional consistency of each mix, so that you will enjoy them to the fullest!
